Special thanks for mixing assistance: Mark Sciaruto, Castle Music Academy; Cary Pearson
Website: danhanczar.com

Special note: Dan Hanczar passed away November 29, 2020, after an extended battle with complications from Covid 19. "Full Circle" was in process of being recorded prior to Dan's death. The music was retrieved from Dan's computer posthumously. "Full Circle" was Dan's fifth project. All of Dan's music is available at danhanczar.com.

Note from Henry Yoder: (Mixing/Mastering Engineer) I have had the honor of working with Dan on each of his previous projects. I was very honored to make this project available posthumously for Dan's family, friends, musicians, and the hundreds who have been touched by his music, his character, and the person he was.

This project was very different for me. I was used to Dan beside me as we labored over each tune, instrument, voice, and even lyric on occasion. I was left without his aide on this project, and his input was sorely missed. I am thankful for the input of his family, but nothing could replace the singer, songwriter, and performer that Dan was. I am hopeful that even in his absence, you will hear the essence of all that Dan was, once again, so passionately expressed in his music.

"Full Circle" was in process for nearly three years. As we launch into 2024, May you find new inspiration from Dan as we present "Full Circle"

All of Dan's music is available wherever you get your music, and directly from www.danhanczar.com, where his music has the most direct benefit to his family.

Merry Christmas and a Happy and prosperous New Year!
